About Me

Senior UX / Product Designer with 6+ years of experience designing and delivering user-centered digital products across **B2B SaaS**, **enterprise applications**, and **web & mobile**. I work end to end, from understanding user and business problems through user research, information architecture, user flows, wire-framing, prototyping, usability testing, and developer hand-off. My experience spans complex workflows, dashboards, asset and facility management, field applications, and immersive XR experiences. I combine design thinking, systems thinking, rapid prototyping, and **AI-assisted workflows** to create scalable, accessible, and practical experiences that balance user needs with business goals.

Highlights

- **6+ yrs** in UX/Product Design across **Enterprise SaaS**, **Facility Management**, **B2B platforms**, and **AR/VR** products for complex business workflows.
- Experienced in designing Web & Mobile experiences for **complex workflows** including **Project Management**, **Condition Assessment**, **Reporting**, **Infrastructure**, **Workflows**, and **Data Management**.
- Strong in **end-to-end** UX, from requirements and information **architecture** to **interaction design**, **prototyping**, **design systems**, **visual design**, usability improvements, and **developer hand-off**.
- Hands-on experience working with **cross-functional teams** and stakeholders, translating complex business requirements into **clear**, **scalable**, and **user-friendly experiences**.
- Utilised AI-assisted design workflows including **Figma Agent**, **Figma Make**, **Chatgpt** and b to explore UX solutions, build scalable design patterns, and accelerate design-to-development workflows.
- Designed experiences for **enterprise users** with different roles and responsibilities, simplifying complex information through **dashboards**, **mobile workflows**, **reporting interfaces**, and **task-based** experiences.

Core Skills

Product & UX Design
Product Design · UX Design · UI Design · Interaction Design · User-Centered Design · Design Thinking
Research & Strategy
User Research · User Flows · Information Architecture · User Journey Mapping · Requirements Analysis · Usability Testing
Design & Prototyping
Wireframing · Prototyping · Responsive Design · Web Design · Mobile Design · Dashboard Design · Design Systems · Visual Design
Enterprise Product Design
B2B SaaS · Enterprise Applications · Complex Workflows · Role-Based Experiences · Data-Heavy Interfaces
Collaboration & Delivery
Stakeholder Collaboration · Cross-functional Collaboration · Design Handoff · Developer Collaboration · Design Documentation · Agile/Scrum
AI-Assisted Design
Figma AI · Figma Make · Chatgpt · Claude · AI-Assisted UX · AI-Powered Design Workflows

Professional Experience

zLink (Senior UX Designer) **Jan 2026 - Sep 2026**

- **Z1 — Web — Enterprise Facility Management**
  Redesigned complex Condition Assessment workflows, bringing key metrics, facility data, assessment status, costs, and an integrated map experience into a clearer Overview experience. Simplified navigation from regional → facility → assessment → deficiency while designing scalable dashboards and data-heavy interfaces.
- **Z1 — Mobile — Project Hub**
  Translated the complex Project Hub web experience into a mobile-first workflow, organizing projects, tasks, schedules, activities, approvals, and progress into focused Overview, Project List, and Pending Approvals experiences. Used progressive disclosure, cards, filters, bottom sheets, and the existing Z1 Design System to make enterprise workflows easier to navigate on mobile.
- My Role: **UX Strategy · Information Architecture · User Flows · Interaction Design · Responsive Design · Design System · Prototyping · High-Fidelity UI · Stakeholder Collaboration**

LTIMindtree (Senior UX/UI Designer) **Mar 2022 - Dec 2025**

- **S&P GLOBAL — Mobile App**
  Designed a map-based mobile experience for the Sustainability Division, helping users navigate and work with location-based sustainability data. Led the UX process from user research and problem discovery through competitor analysis, user flows, low-fidelity exploration, wireframing, and high-fidelity UI, translating complex location and weather information into a clear mobile experience.
- **TOPCON — Mobile App**
  Designed a mobile workflow for field engineers to capture site data through a Bluetooth-enabled survey device, with real-time synchronization, structured workflows, and task management. Took the experience from hand sketches → mid-fidelity → high-fidelity UI, focusing on clarity and usability.
- **COLONIAL PIPELINE — Mobile App**
  Designed an end-to-end asset and resource management experience, enabling administrators to track assets and monitor field engineers through dashboards, real-time data visualization, and role-based workflows.
- My Role: **UX Research · Problem Discovery · Competitor Analysis · Information Architecture · User Flows · Interaction Design · Wireframing · Prototyping · UI Design · Design Systems · Stakeholder Collaboration · Developer Handoff**

Professional Experience

Holopundits Pvt Ltd (Junior UX/UI Designer) **JaN 2020 - Mar 2022**

- **XR GURU — Web App**
  Designed immersive AR/VR learning experiences that translated educational content into interactive spatial experiences, focusing on intuitive navigation, interaction flows, and usability across immersive environments.
- **TOTAL AR — Mobile App**
  Designed AR-based interactive experiences with a focus on user flows, spatial interactions, visual communication, and intuitive interactions for users exploring augmented content.
- **MEETIN XR — Mobile App**
  Designed an immersive XR collaboration and meeting experience, working on interaction flows and UI patterns that helped users navigate and communicate within a virtual environment.

Tridots Tech Pvt Ltd (Software Engineer) **July 2018 - Nov 2018**

- **Avadi Railway Museum Project — Mobile App**
  Built a foundation in mobile development and UI design, working on responsive interfaces and front-end implementation using HTML, CSS, Bootstrap, and JavaScript. Worked across UI development and implementation, translating requirements into functional web experiences and gaining hands-on understanding of how design decisions translate into production. Built a strong foundation in design-to-development workflows, which later supported my transition into dedicated UX/UI and Product Design roles.

Education

Meenakshi Academy Of Higher Education & Research, Chennai , India **2014-2018**

B.E. Computer Science
