HARI KRISHNA C

Senior UX / Product Designer | B2B SaaS | Enterprise UX | Web & Mobile

9500354209 | uxbeing95@gmail.com | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Senior UX / Product Designer with 6+ years of experience designing user-centered digital products across B2B SaaS, enterprise applications, and web and mobile experiences. Experienced across the end-to-end design process—from requirements analysis and information architecture to user flows, wireframing, prototyping, usability testing, high-fidelity UI, and developer handoff. Work spans facility and asset management, data-heavy dashboards, field applications, and immersive XR experiences. Focused on translating complex business requirements into clear, scalable, and practical user experiences.

CORE SKILLS

Product & UX Design: Product Design, UX Design, UI Design, Interaction Design, User-Centered Design, Design Thinking

Research & Strategy: User Research, Problem Discovery, Requirements Analysis, User Flows, Information Architecture, Journey Mapping, Usability Testing, Competitor Analysis

Design & Prototyping: Wireframing, Prototyping, Responsive Design, Web Design, Mobile Design, Dashboard Design, Visual Design, Design Systems

Enterprise UX: B2B SaaS, Enterprise Applications, Complex Workflows, Role-Based Experiences, Data-Heavy Interfaces, Facility Management

Collaboration & Delivery: Stakeholder Collaboration, Cross-Functional Collaboration, Design Documentation, Developer Handoff, Agile/Scrum

Tools & AI-Assisted Workflows: Figma, Adobe XD, Balsamiq, Framer, Figma Make, Figma AI, ChatGPT, Claude

PROFESSIONAL EXPERIENCE

zLink | Senior UX Designer Jan 2026 – Sep 2026

Z1 — Web | Enterprise Facility Management

- Redesigned Condition Assessment workflows by bringing key metrics, facility data, assessment status, costs, and an integrated map into a clearer overview experience.
- Simplified navigation across the regional, facility, assessment, and deficiency levels while designing scalable dashboards and data-heavy interfaces.

Z1 — Mobile | Project Hub

- Adapted the Project Hub web experience into a mobile-first workflow covering projects, tasks, schedules, activities, approvals, and progress.
- Structured the experience around Overview, Project List, and Pending Approvals, using progressive disclosure, cards, filters, and bottom sheets within the existing Z1 Design System.

Focus: UX strategy, information architecture, user flows, interaction design, responsive design, design system adaptation, prototyping, high-fidelity UI, and stakeholder collaboration.

LTIMindtree | Senior UX/UI Designer Mar 2022 – Dec 2025

S&P Global — Sustainability Mobile App

- Designed a map-based mobile experience to help users navigate and work with location-based sustainability data.
- Worked from user research and problem discovery through competitor analysis, user flows, wireframes, and high-fidelity UI, simplifying location and weather information.

Topcon — Survey Equipment Mobile App

- Designed a mobile workflow for field engineers to capture site data through a Bluetooth-enabled survey device, with real-time synchronization and task management.
- Developed the experience from hand sketches and mid-fidelity concepts to high-fidelity UI, focusing on workflow clarity and usability.

Colonial Pipeline — Mobile App

- Designed an asset and resource management experience for administrators to track assets and monitor field engineers through dashboards, data visualization, and role-based workflows.

Focus: UX research, problem discovery, competitor analysis, information architecture, user flows, interaction design, wireframing, prototyping, UI design, design systems, stakeholder collaboration, and developer handoff.

Holopundits Pvt. Ltd. | Junior UX/UI Designer Jan 2020 – Mar 2022

XR Guru — Web App

- Designed immersive AR/VR learning experiences, translating educational content into interactive spatial experiences with intuitive navigation, interaction flows, and usability.

Total AR — Mobile App

- Designed AR-based interactive experiences focused on user flows, spatial interactions, visual communication, and intuitive exploration of augmented content.

Meetin XR — Meeting App

- Worked on interaction flows and UI patterns for an immersive XR collaboration and meeting experience, supporting navigation and communication in virtual environments.

Tridots Tech Pvt. Ltd. | Software Engineer Jul 2018 – Nov 2018

Mobile App & Web Interfaces

- Worked on responsive UI development and front-end implementation using HTML, CSS, Bootstrap, and JavaScript.

• Translated requirements into functional web experiences and built a foundation in design-to-development workflows.

EDUCATION

B.E. Computer Science | Meenakshi Academy of Higher Education & Research, Chennai | 2014–2018

LANGUAGES

English, Hindi, Malayalam, Tamil
